

CHAPTER 8:

Billing on the CMS 1500 Claim Form

Reviewed/Revised: 10/01/18, 01/01/19, 10/02/19, 1/1/20

8.0 INTRODUCTION

The CMS 1500 claim form is used to bill for non-facility services, including professional services, freestanding surgery centers, transportation, durable medical equipment, ambulatory surgery centers and independent laboratories. FQHC services may also be billed on the CMS 1500 claim form. This chapter covers paper claim submission only, for additional information on electronic claim submission and general billing requirements please see Chapter 7 *General Billing Rules*.

The information is provided "as is" without any expressed or implied warranty. While all information in this document is believed to be correct at the time of writing, this document is for educational purposes only and does not purport to provide legal advice.

All models, methodologies and guidelines are undergoing continuous improvement and modification by Noridian Healthcare Solutions (Noridian) and the CMS. The most current edition of the information contained can be found on the [Noridian website](#) and the [CMS website](#) .

8.1 SUCCESSFUL CMS 1500 CLAIM SUBMISSION TIPS

Format:

- Do not print, hand-write, or stamp any extraneous data on the form.
- No hand-written corrections, no highlighting.
- Enter all information on the same horizontal plane within the designated field.
- Ensure data is in the appropriate field and does not overlap into other fields.
- Use individual's name in provider signature, not a facility or practice name.
- If required fields are not completed or if any fields are completed incorrectly, an error code will be identified for the claim. For example, if the date is "December 10, 2016" it must be recorded as 12/10/2016 (MM/DD/YYYY format).

Accurate information is key:

- Put member's name and ID number as it appears on member card
- Include all applicable NPI numbers
- Indicate the correct address including ZIP code where service was rendered,
- Ensure that the # of units/days and the dates of service range are not contradictory
- Ensure that the quantity indicated in the procedure codes description are not contradictory
- If Prior Authorization (PA) is required the PA number must be reported with all numbers including leading zeros (i.e. 0000123456).

Coding tips:

- Assign current ICD-10 diagnosis codes and code them to the highest level of specificity available.
 - Primary diagnosis (The primary diagnosis should describe the main condition or symptom of the patient).
 - Secondary/Additional Diagnosis
 - ✓ This field should be used if there is a secondary and/or additional conditions or symptoms that affect the treatment.
 - ✓ Diagnosis which relate to a previous illness and which have no bearing on the current encounter should not be reported.
- The number of anesthesia minutes should always be reported on each claim in Field 24G.
- Use current valid CPT and HCPCS codes.
- Use current valid modifiers when necessary.
